Topic: Laundry situation in different residence halls.

Some freshman are surprised at their laundry situation - maybe some have even just learned how to do their own laundry! The biggest shock is that some residents of certain halls have to pay, while those of different halls don't. I'd like to interview different freshman from varying halls about their situation and get first hand opinions on this.

Questions to ask:

1. What is your name, major, and year?
2. Which residence hall are you currently residing in?
3. Are you satisfied with the laundry situation?
  - a. Do you have to pay/is it free, are the laundry rooms clean, or have you ever had an instance of your clothes being stolen?
4. Are you aware that, in certain residence halls, students have to pay/the laundry is free (opposite of whatever their current situation is)?
5. Do you think laundry should be free to do included with our tuition, or is it reasonable to ask students to pay to do laundry?
